REQUEST FOR PROPOSAL FOR COMMISSIONING OF RESEARCH FOR THE NATIONAL SKILLS AUTHORITY: NATIONAL SKILLS DEVELOPMENT STRATEGY (NSDS) IMPACT STUDY

1. BACKGROUND

The National Skills Authority (NSA) is an advisory body established in terms of Skills Development Act, No 97 of 1998 (SDA). The primary functions of the NSA are to advise the Minister of Higher Education and Training on matters of skills development in accordance with section 5 of the Skills Development Act.

The NSDS III was released in January 2011, with its key driving force being to improve the effectiveness and efficiency of the skills development system. Consisting of eight goals, the NSDS III is designed to respond to the eight skills development challenges. The intention of the strategy is thus to make sure that the energy and resources of education and training stakeholders are focused on ensuring that these challenges are addressed, and that measurable impact is achieved over the five year period of the strategy.

National skills development strategy's **eight (8) goals** is:

- a. Establish a credible institutional mechanism for skills planning
- b. Increase access to occupationally-directed programmes
- c. Promote the growth of a public FET college system that is responsive to sector, local, regional and national skills needs and priorities
- d. Address the low level of youth and adult language and numeracy skills to enable additional training
- e. Encourage better use of workplace-based skills development
- f. Encourage and support cooperatives, small enterprises, worker-initiated, NGO and community training initiatives
- g. Increase public sector capacity for improved service delivery and support the building of a developmental state
- h. Build career and vocational guidance

The NSDS III also provides a framework for the planning and implementation of skills development programmes and activities consisting of: key developmental and transformation imperatives and seven pillars. The implementation of the NSDS III is guided by **seven (7) key developmental and transformation imperatives** and all skills development initiatives will be measured against these imperatives.

- **Seven Key Developmental and Transformation Imperatives** which provide the focus for skills development programmes and activities
 1. *Race*

Priority must be given to providing opportunities to previously (and currently) disadvantaged South Africans with focused attention on skills provision for blacks in general and Africans in particular to help in reducing racial inequalities in our economy and skills profile.
 2. *Class*

Priority must be given to access to skills by the overwhelming majority of our population, especially the workers and the poor, with particular attention to the provision of skills in a manner that significantly reduces social inequalities.
 3. *Gender*

Priority must be given to access to skills by women, especially black women, and skills development initiatives must contain within them specific programmes and strategies to promote gender equality.
 4. *Geography*

Priority must be given to the production of skills for rural development with the aim to train rural people for development of the rural areas themselves.
 5. *Age*

Priority must be given to the training of our youth for employment to help reduce the unemployment rate in those aged 35 and under.
 6. *Disability*

Priority must be given to significantly open up opportunities for skills training for people experiencing barriers to employment caused by various forms of physical and intellectual disability.
 7. *The HIV and AIDS pandemic*

Priority must be given to incorporating the management of HIV and AIDS in the workplace with skills development initiatives to help in the fight against the HIV and AIDS pandemic.

- **Seven Pillars** which offer a basis for the structuring of skills development programmes and activities. The NSDS III also provides **seven (7) pillars** which offer a basis for the structuring of skills development programmes and activities, including, in summary:
 1. Sector strategies, programmes and projects that address government and industry skills development priorities;
 2. Sector-based programmes that address the needs of unemployed people and first-time entrants to the labour market;
 3. Professional, vocational, technical and academic learning (PIVOTAL) programmes that provide a full occupationally-directed qualification and culminate in an occupational qualification;
 4. Vocational education and training programmes that address the competence of lecturers and trainers and promote occupationally directed research and innovation;
 5. Cooperative, NGO and trade union sectors training and skills development capacity incentives;
 6. Cross-sectoral and inter-sectoral SETA and Provider partnerships; and
 7. Rural development skills programmes.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
